Λudiâire

Thank you for trialing this expansion pack for Nuxx. We hope you enjoy this selection of free sounds which were taken directly from the full expansion pack.

The processes for installing on each operating system are listed below. If you encounter any issues, please can contact us directly on our website www.audiaire.com

Please ensure you are using the latest Nuxx update. You can download the latest update from here: https://www.audiaire.com/store/products/nuxx/

Splice users can update within the Splice app.

INSTALLATION GUIDE

Windows:
Copy the presets folder that came within the downloaded archive to this path:
C:\Users*username*\AppData\Roaming\Audiaire\Nuxx\Presets

Please note that *username* is the name of your user account on your Windows operating system.

Mac OS:
Copy the presets folder that came within the downloaded archive to this path:
~/Library/Application Support/Audiaire/Nuxx/Presets/

To access this path, you can copy and paste the stated path to Finder's "Go to Folder" feature.

UNINSTALL GUIDE

Windows and Mac OS:
Delete the copied folder.
